

To access captions

On iOS - iPhone / iPad (v 8 or above)

- download the free Difference Engine app from the **App Store**

On Android (v 5.1 or above)

- download the free Difference Engine app by going to: **<http://bit.ly/DEAndroid>**
(NB as this is still being tested, it is not publicly available from the PlayStore – you need to follow this link)

Then set your device to airplane mode, re-enable WiFi and select the Difference Engine network (this should be available at least 20 mins before the event begins – if not, speak to a member of staff) Password is: engine123 (If this changes it will be in the Guide on the app). Select Captions.

If you have a different device, or an older version of iOS or Android

- Connect to the Difference Engine WiFi network, as above
- Open a browser on your device (eg Chrome, Safari)
- Type 192.168.0.105 into the address bar and press Enter. Select Captions.

You might want to adjust your brightness down – it will save battery life!
